Company Overview

LandscapingGlobe is a global, quote-based marketplace designed to connect service providers, suppliers, professionals, and clients with unprecedented efficiency. By facilitating direct, off-platform transactions, the platform empowers businesses to manage quotes, profiles, and visibility upgrades without intermediaries.

Company Facts

Founded
2025

Founder & CEO
Faisal Sanpal

Company Type
Private Company

Legal Entity
LandscapingGlobe LLC
(Single-Member LLC)

Headquarters
Global Platform (Operating Internationally)

Platform Model

- Quote-driven marketplace optimizing service discovery
- No on-platform payments or transaction fees
- Tiered subscription model for enhanced profile and product visibility
- Enterprise-grade architecture built for scalability and compliance

Core User Roles

Service Providers

Contractors & companies delivering professional services

Product & Material Suppliers

Vendors offering products, solutions, and equipment

Clients

Residential, commercial, and institutional property owners

Industry Professionals & Consultants

Experts providing guidance and consulting

Knowledge & Insight Users

Access to industry trends, research, and analytics

Initial Industry Focus

Landscaping

Horticulture

Irrigation

Outdoor Infrastructure & Design

Platform infrastructure is fully scalable to support expansion into additional green and blue industries globally.

Key Differentiators

- Global-first marketplace architecture designed for professional workflows
- No forced checkout or commission, empowering users to transact on their terms
- Standardized global product and service classifications
- Compliance-ready, enterprise-grade systems with robust scalability
- Focused on supplier and contractor empowerment, not platform control

Geographic Availability

International access, with initial operations in selected jurisdictions and full global scalability enabled.

Revenue Model

- Tiered subscription plans for all user roles
- Enhanced profile and product visibility upgrades
- Boosted listings and featured promotions

(No transaction fees are collected by the platform)

Technology & Infrastructure

- Cloud-native, modular architecture designed for global scale
- SEO-optimized marketplace infrastructure for maximum visibility
- Compliance-ready across multiple international jurisdictions
- Supports enterprise-level performance, security, and reporting

Vision

To be the world's most trusted global marketplace, connecting service providers, suppliers, and clients with efficiency, transparency, and reliability.

Mission

To simplify professional discovery, quoting, and collaboration across industries while allowing businesses to transact directly on their own terms.
